The Audit Plan for Royal Berkshire Fire and Rescue Authority

Year ending 31 March 2025

March 2025

Contents

01 Key developments impacting our audit approach

Local Audit Reform

External factors

Proposals for an overhaul of the local audit system

On 18 December 2024, the Minister of State for Local Government and English Devolution, Jim McMahon OBE, wrote to local authority leaders and local audit firms to announce the launch of a strategy to overhaul the local audit system in England. The proposals were also laid in Parliament via a Written Ministerial Statement.

The government's strategy paper sets out its intention to streamline and simplify the local audit system, bringing as many audit functions as possible into one place and also offering insights drawn from audits. A new Local Audit Office will be established, with responsibilities for:

- Coordinating the system – including leading the local audit system and championing auditors' statutory reporting powers;
- Contract management, procurement, commissioning and appointment of auditors to all eligible bodies;
- Setting the Code of Audit Practice;
- Oversight of the quality regulatory framework (inspection, enforcement and supervision) and professional bodies;
- Reporting, insights and guidance including the collation of reports made by auditors, national insights of local audit issues and guidance on the eligibility of auditors.

Our Response

Grant Thornton welcomes the proposals, which we believe are much needed, and are essential to restore trust and credibility to the sector. For our part, we are proud to have signed 83% of our 2022/23 local government audit opinions without having to apply the local authority backstop. This compares with an average of less than 30% sign off for other firms in the market. We will be keen to work with the MHCLG, with existing sector leaders and with the Local Audit Office as it is established to support a smooth transition to the new arrangements.

Local Audit Reform (continued)

External factors

Proposals for an overhaul of the local audit system

The Minister also advised that, building on the recommendations of Redmond, Kingman and others, the government will ensure the core underpinnings of the local audit system are fit for purpose. The strategy therefore includes a range of other measures, including:

- setting out the vision and key principles for the local audit system;
- committing to a review of the purpose and users of local accounts and audit and ensuring local accounts are fit for purpose, proportionate and relevant to account users;
- enhancing capacity and capability in the sector;
- strengthening relationships at all levels between local bodies and auditors to aid early warning system; and
- increased focus on the support auditors and local bodies need to rebuild assurance following the clearing of the local audit backlog.

Our Response

Building and maintaining public trust is arguably the cornerstone of effective governance. Local government must prioritise transparency, open communication and meaningful public engagement to foster positivity within communities.

Sound strategic financial management, collaboration with other partners are vital for authorities to overcome financial constraints and deliver quality services.

Our value for money audit work continues to identify significant weaknesses in all criteria of the Code of Audit Practice, across the sector. This shows that authorities are facing increasing pressure to provide services while managing change and reducing costs. We understand that the environment in which our audited bodies operate is dynamic and challenging and this understanding allows us to have insightful conversations and adapt our approach to delivering our audit work accordingly.

We know the difficulties and challenges faced within our Local Authority bodies and know there is a focus on improving quality and reducing costs. We will work with you as you strive to deliver these aims.

Key developments impacting our audit approach (continued)

National Position

Digital Transformation : The fast pace of technological advancement poses both opportunities and challenges for the sector. The adoption of digital tools and platforms is crucial for improving service delivery, enhancing communication and streamlining administrative processes. However, many communities still lack access or ability to navigate essential technology which creates a digital divide. Authorities need to ensure inclusivity in its digital strategies, addressing disparities and ensuring all residents can benefit from the opportunities technology offers.

Cybersecurity: Local government needs to protect against malware and ransomware attacks. They also need to navigate central government policy shifts and constraints. With increased reliance on digital platforms, they become more vulnerable to cyber threats. Safeguarding sensitive data and ensuring the integrity of critical systems are paramount and local authorities must invest in robust cybersecurity measures, employee training and contingency plans to protect themselves.

Local Context

New accounting standards and reporting developments

- Authorities will need to implement IFRS 16 Leases from 1 April 2024. The main difference from IAS 17 will be that leases previously assessed as operating leases by lessees will need to be accounted for on balance sheet as a liability and associated right of use asset. More information can be found on the next slide.

Our Response

- We have identified this as an ‘other’ risk. We will carry out a detailed review of the authority's implementation of IFRS 16. More information can be found on slide 8.

Key developments impacting our audit approach (continued)

Our commitments

- As a firm, we are absolutely committed to audit quality and financial reporting in local government. Our proposed work and fee, as set out further in this Audit Plan, has been agreed with the Head of Finance and Procurement Services.
- To ensure close work with audited bodies and an efficient audit process, our preference as a firm is either for our UK based staff to work on site with you and your staff or to develop a hybrid approach of on-site and remote working. The prior year audit was delivered remotely. This will be the approach for 2024/25. We will continue to discuss this approach as the audit progress and will attend the HQ if required to ensure the audit progresses.
- We would like to offer a formal meeting with the Chief Fire Officer twice a year, and with the Head of Finance and Procurement Services quarterly as part of our commitment to keep you fully informed on the progress of the audit.
- At an appropriate point within the audit, we would also like to meet informally with the Chair of your Audit and Governance Committee, to brief them on the status and progress of the audit work to date.
- Our Value for Money work will continue to consider the arrangements in place for you to secure economy, efficiency and effectiveness in the use of your resources.
- We will continue to provide you and your Audit and Governance Committee with sector updates providing our insight on issues from a range of sources via our Audit and Governance Committee updates.
- We hold annual financial reporting workshops for our audited bodies to access the latest technical guidance and interpretation , discuss issues with our experts and create networking links with other clients to support consistent and accurate financial reporting across the sector.

IFRS 16 Leases

Summary

IFRS 16 Leases is now mandatory for all Local Government (LG) bodies from 1 April 2024. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and replaces IAS 17. The objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. This information gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of an entity.

Introduction

IFRS 16 updates the definition of a lease to:

- "a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration." In the public sector the definition of a lease is expanded to include arrangements with nil consideration.

This means that arrangements for the use of assets for little or no consideration (sometimes referred to as peppercorn rentals) are now included within the definition of a lease.

IFRS 16 requires all leases to be accounted for 'on balance sheet' by the lessee (subject to the exemptions below), a major change from the requirements of IAS 17 in respect of operating leases.

There are however the following exceptions:

- leases of low value assets (optional for LG)
- short-term leases (less than 12 months).

Lessor accounting is substantially unchanged leading to asymmetry of approach for some leases (operating). However, if an Authority is an intermediary lessor, there is a change in that the judgement, as to whether the lease out is an operating or finance lease, is made with reference to the right of use asset rather than the underlying asset. The principles of IFRS 16 will also apply to the accounting for PFI assets and liabilities.

Systems and processes

We believe that most LG Bodies will need to reflect the effect of IFRS 16 changes in the following areas:

- accounting policies and disclosures
- application of judgment and estimation
- related internal controls that will require updating, if not overhauling, to reflect changes in accounting policies and processes
- systems to capture the process and maintain new lease data and for ongoing maintenance
- accounting for what were operating leases
- identification of peppercorn rentals and recognising these as leases under IFRS 16 as appropriate

Planning

As part of our planning risk assessment procedures, we are reviewing the systems that the Authority has in place to identify and review all leases. We will also confirm the valuation of the disclosed right of use asset recognised. This is expected to be immaterial, and therefore our work is focused on completeness.

The Backstop

Local Government National Context – The Backstop

On 30 September 2024, the Accounts and Audit (Amendment) Regulations 2024 came into force. This legislation introduced a series of backstop dates for local authority audits. These Regulations required audited financial statements to be published by the following dates:

- for years ended 31 March 2023 and earlier by 13 December 2024; and
- for years ended 31 March 2024 by 28 February 2025; and
- for years ended 31 March 2025 by 27 February 2026.

The Statutory Instrument is supported by the National Audit Office's (NAO) new Code of Audit Practice 2024. The backstop dates were introduced with the purpose of clearing the backlog of historic financial statements and enable to the reset of local audit. Where audit work is not complete, this will give rise to a disclaimer of opinion. This means the auditor has not been able to form an opinion on the financial statements.

Local Government National Context – Local Audit Recovery

In the audit report for the year ended 31 March 2024, a disclaimer of opinion was issued due to the backstop. We also referred to issues with the accuracy of the assumptions underpinning land and building valuations.

As are result, we anticipate that for 2024/25:

- we will have limited assurance over the opening balances for 2024/25, in that the closing balances for 2023/24 were based on opening balances for 2022/23 where no assurance was gained (other than cash), and
- limited assurance over the closing reserves balance also due to the uncertainty over their opening amount.

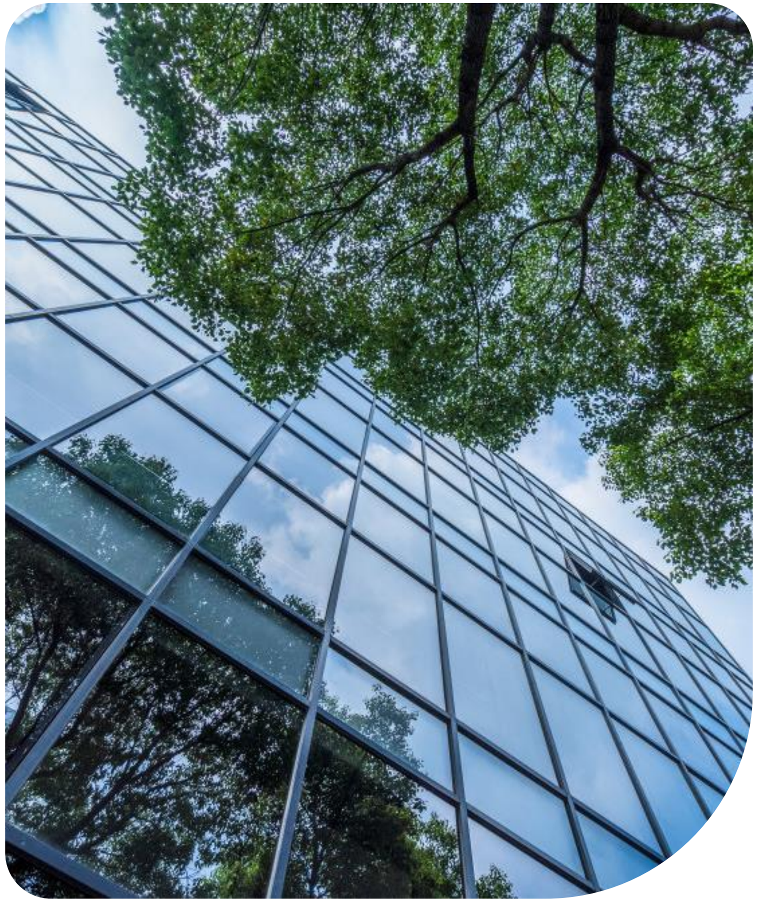
We are in discussion with the NAO and the Financial Reporting Council (FRC) as how we regain assurance. We will work with the Authority to rebuild assurance over time.

Our Work

Our initial focus for the audit will be on in-year transactions including income and expenditure, journals, capital accounting, payroll and remuneration and disclosures; and closing balances for 2024/25. Our objective is to begin a pathway to recovery, by providing assurance over the in year 2024/25 transactions and movements, where possible, and those closing balances which can be purely determined in isolation without regard to the opening balance, such as payables and receivables. As guidance is received from the NAO and the FRC, we will formulate a more detailed strategy as to how assurance can be gained on prior years.

02 Introduction and Headlines

Introduction and headlines



Purpose

- This document provides an overview of the planned scope and timing of the statutory audit of Royal Berkshire Fire and Rescue Authority ('the Authority') for those charged with governance.

Respective responsibilities

- The National Audit Office ('the NAO') has issued the Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the agreed in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Royal Berkshire Fire and Rescue Authority. We draw your attention to these documents.

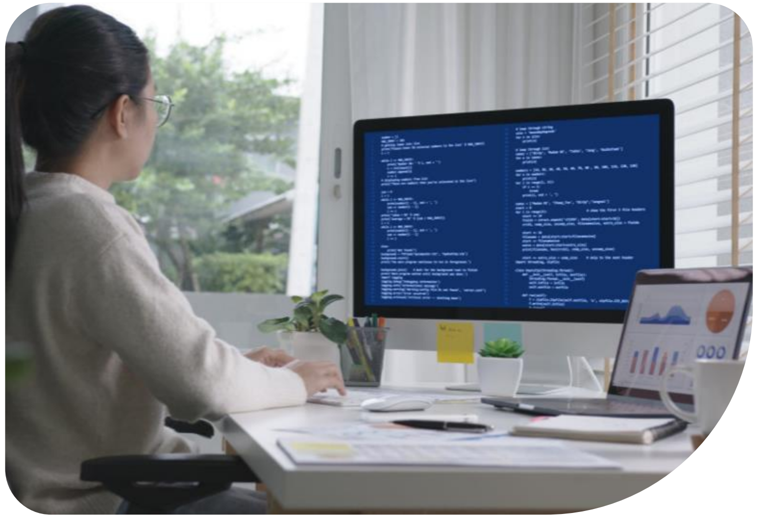
Scope of our Audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Authority's financial statements that have been prepared by management with the oversight of those charged with governance (the Audit and Governance Committee); and we consider whether there are sufficient arrangements in place at the Authority for securing economy, efficiency and effectiveness in your use of resources. Value for money relates to ensuring that arrangements are in place to use resources efficiently in order to maximise the outcomes that can be achieved as defined by the Code of Audit Practice.

The audit of the financial statements does not relieve management or the Audit and Governance Committee of your responsibilities. It is the responsibility of the Authority to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Authority is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Authority's business and is risk based.

Introduction and headlines (continued)



Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Management override of control
- Valuation of land and buildings and investment properties, and
- Valuation of the pension liability.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality to be £0.970m (PY £0.666m) for the Authority, which equates to 2.2% of your prior year gross operating costs for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance.

Our performance materiality for the audit has been set at 70% of materiality at £0.680m.

Clearly trivial has been set at £0.049m (PY £0.033m).

We will report to you all misstatements identified in excess of triviality.

We have also set a separate materiality for Senior Officer Remuneration disclosures, for individual officers, at £20,000.

Value for Money arrangements

Our risk assessment regarding your arrangements to secure value for money has not identified any significant weakness areas or related risks, requiring separate attention. We will continue to monitor and update our risk assessment and responses until we issue our Auditor's Annual Report.

Audit logistics

Our planning/interim visit took place in February and March 2025. We are currently finalising the timing of our detailed audit work, and will communicate the dates as soon as they are confirmed.

We do propose to carry out additional early testing in April 2025. Our key deliverables are this Audit Plan, our Audit Findings Report, our Auditor's Report and Auditor's Annual Report.

Our proposed fee for the audit is £111,904 (PY: £120,876) for the Authority, subject to the Authority delivering a good set of financial statements and working papers and no significant new financial reporting matters arising that require additional time and/or specialist input.

We have complied with the Financial Reporting Authority's Ethical Standard (revised 2024) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements

03 Identified risks

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

"In determining significant risks, the auditor may first identify those assessed risks of material misstatement that have been assessed higher on the spectrum of inherent risk to form the basis for considering which risks may be close to the upper end. Being close to the upper end of the spectrum of inherent risk will differ from entity to entity and will not necessarily be the same for an entity period on period. It may depend on the nature and circumstances of the entity for which the risk is being assessed. The determination of which of the assessed risks of material misstatement are close to the upper end of the spectrum of inherent risk, and are therefore significant risks, is a matter of professional judgment, unless the risk is of a type specified to be treated as a significant risk in accordance with the requirements of another ISA (UK)." (ISA (UK) 315).

In making the review of unusual significant transactions "the auditor shall treat identified significant related party transactions outside the entity's normal course of business as giving rise to significant risks." (ISA (UK) 550).

Management should expect engagement teams to challenge them in areas that are complex, significant or highly judgmental which may be the case for accounting estimates, going concern, related parties and similar areas. Management should also expect to provide engagement teams with sufficient evidence to support their judgments and the approach they have adopted for key accounting policies referenced to accounting standards or changes thereto.

Where estimates are used in the preparation of the financial statements management should expect teams to challenge management's assumptions and request evidence to support those assumptions.

Significant risks identified (continued)

Significant risk	Risk relates to	Audit team's assessment	Planned audit procedures
Management override of controls	Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management override of controls is present in all entities.	We have therefore identified management override of controls, in particular journals, management estimates and transactions outside the course of business as a significant risk of material misstatement.	We will: • evaluate the design effectiveness of management controls over journals; • analyse the journals listing and determine the criteria for selecting high risk unusual journals; • test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration; • gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence; and • evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.

Significant risks identified (continued)

Significant risk	Risk relates to	Audit team's assessment	Planned audit procedures
The revenue cycle includes fraudulent transactions	Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue	We have identified and completed a risk assessment of all revenue streams for the Authority. We have rebutted the presumed risk that revenue may be misstated due to the improper recognition of revenue for all revenue streams. This is due to there being: • little incentive to manipulate revenue recognition; • limited opportunities to manipulate revenue recognition are very limited; and • the culture and ethical frameworks of local authorities, including Royal Berkshire Fire and Rescue Authority, mean that all forms of fraud are seen as unacceptable.	We do not consider this to be a significant risk for the Authority and standard audit procedures will be carried out. We will keep this consideration under review throughout the audit to ensure this judgement remains appropriate. Our standard procedures include, but are not limited to: • agree on a sample basis relevant income/grants and year end receivable/income accruals to invoices and cash payment or other supporting evidence; and • testing on sample basis of invoices issued in the period prior to and following 31 March 2025 to determine whether income is recognised in the correct accounting period, in accordance with the amounts billed to the corresponding parties.

Significant risks identified (continued)

Significant risk	Risk relates to	Audit team's assessment	Planned audit procedures
The expenditure cycle includes fraudulent transactions	Practice Note 10 (PN10) states that as most public bodies are net spending bodies, then the risk of material misstatements due to fraud related to expenditure may be greater than the risk of material misstatements due to fraud related to revenue recognition. As a result under PN10, there is a requirement to consider the risk that expenditure may be misstated due to the improper recognition of expenditure.	We have identified and completed a risk assessment of all expenditure streams for the Authority. We have considered the risk that expenditure may be misstated due to the improper recognition of expenditure for all expenditure streams and concluded that there is not a significant risk. This is due to the low fraud risk in the nature of the underlying nature of the transaction, and: • expenditure is well controlled and the Authority has a strong control environment; and • the Authority has clear and transparent reporting of its financial plans and financial position to those charged with governance.	We do not consider this to be a significant risk for the Authority and standard audit procedures will be carried out. We will keep this consideration under review throughout the audit to ensure this judgement remains appropriate. Our standard procedures include, but are not limited to: • agree on a sample basis relevant expenditure and year end payables and accruals to invoices or other supporting evidence; and • carry out testing on sample basis of invoices received in the period prior to and following 31 March 2025 to determine whether expenditure is recognised in the correct accounting period, in accordance with the amounts billed to the corresponding parties.

Significant risks identified (continued)

Significant risk	Audit team's assessment	Planned audit procedures
Closing valuation of land and buildings, and investment properties and the key assumptions and judgements that underpin these significant estimates	The Authority revalues its land and buildings (and investment properties) on an annual basis to ensure that the carrying value is not materially different from the current value at the financial statements date. These valuations represents a significant estimate by management in the financial statements due to the size of the numbers involved (£61m for land and buildings and £1m for investment properties) and the sensitivity of this estimate to changes in key assumptions. Management have engaged the services of a valuer to estimate the current value as at 31 March 2024. The valuation of land and buildings is a key accounting estimate which is sensitive to changes in assumptions and market conditions. In the 2023/24 audit report, we qualified the accounts, as our testing identified a number instances where the assumptions used by the valuer (gross internal areas – (GIAs)), did not agree to the authority's records. We recommended that all assets be revalued and that GIAs be remeasured and updated. Based on the above we have therefore identified valuation of land and buildings and investment properties as a significant risk, in particular, any large or unusual assets or where there have been movements in valuations outside our expectations, as well as testing a sample of those within our expectations. This is one of the most significant assessed risks of material misstatement, and a key audit matter.	We will: • evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to valuation experts and the scope of their work; • evaluate the competence, capabilities and objectivity of the valuation expert; • write to the valuer to confirm the basis on which the valuation was carried out; • challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding, the Authority's valuer's report and the assumptions that underpin the valuation; • test revaluations made during the year to see if they had been input correctly into the Authority's asset register; • review the appropriateness of the useful economic life's used to calculate depreciation; and • we will carry out specific work understanding the approach taken by the valuer to address the GIA issue and will test this as part of our sampling work.

Significant risks identified (continued)

Significant risk	Audit team's assessment	Planned audit procedures
Valuation of the pension fund net liability and the key assumptions that underpin this significant estimate	The Authority's balance sheet reflects a pension liability of £280m. This is made up of the Fire Fighters Pension Scheme and the Local Government Pension scheme. The Firefighters Pension scheme's pension fund liability is valued at £275m in the balance sheet and represents a significant estimate in the financial statements. The Local Government Pension Scheme (LGPS) pension net liability, which is reflected in the balance sheet at £4.6m, also represent a significant estimate in the financial statements. These estimates by their nature are subject to significant estimation uncertainty being sensitive to small adjustments in the key assumptions used. The actuarial assumptions used are the responsibility of the entity but should be set on the advice given by the actuary. A small change in the key assumptions (discount rate, inflation rate, salary increase and life expectancy) can have a significant impact on the estimated IAS 19 liability. We have therefore concluded that there is a significant risk of material misstatement in the IAS 19 estimate due to the assumptions used in their calculation. With regard to these assumptions, we have therefore identified valuation of the Authority's pension fund net liability as a significant risk.	We will: • update our understanding of the processes and controls put in place by management to ensure that the Authority's pension fund net liability is not materially misstated and evaluate the design of the associated controls; • evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work; • assess the competence, capabilities and objectivity of the actuary who carried out the Authority's pension fund valuation; • assess the accuracy and completeness of the information provided by the Authority to the actuary to estimate the liability; • test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary; • undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as the auditor's expert) and performing any additional procedures suggested within the report; and • obtain assurances from the auditor of Berkshire Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the Berkshire Pension Fund financial statements. • test the data provided to the actuary of the Fire Fighter Pension Fund.

Other risks identified (continued)

Risk	Description	Planned audit procedures
IFRS16 implementation	IFRS 16 requires all leases to be accounted for 'on balance sheet' by the lessee (subject to the exemptions). This is a major change from the requirements of IAS 17 in respect of operating leases. Whilst the assets recognised on the balance sheet are unlikely to be material there remains a risk of completeness of the assessment and disclosure as well as the valuation of the asset.	Our work will include assessing: • accounting policies and disclosures; • application of judgment and estimation; • related internal controls; • systems to capture the process and maintain new lease data and for ongoing maintenance; • accounting for what were operating leases; and • identification of peppercorn rentals and recognising these as leases under IFRS 16 as appropriate.

Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Authority.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
  - giving electors the opportunity to raise questions about your financial statements, consider and decide upon any objections received in relation to the financial statements;
  - issuing a report in the public interest or written recommendations to the Authority under section 24 of the Local Audit and Accountability Act 2014 (the Act);
  - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act;
  - issuing an advisory notice under section 29 of the Act.
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, 'irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure'. All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

04 Our approach to materiality

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

Matter	Description	Planned audit procedures
01	**Determination** We have determined planning materiality (financial statement materiality for the planning stage of the audit) based on professional judgement in the context of our knowledge of the Authority, including consideration of factors such as stakeholder expectations, industry developments, financial stability and reporting requirements for the financial statements	• We determine planning materiality in order to: – establish what level of misstatement could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements – assist in establishing the scope of our audit engagement and audit tests – determine sample sizes and – assist in evaluating the effect of known and likely misstatements in the financial statements
02	**Other factors** An item does not necessarily have to be large to be considered to have a material effect on the financial statements	• An item may be considered to be material by nature when it relates to: – instances where greater precision is required
03	**Reassessment of materiality** Our assessment of materiality is kept under review throughout the audit process	• We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality

Our approach to materiality (continued)

Matter	Description	Planned audit procedures
04	**Matters we will report to the Audit and Governance Committee** Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit and Governance Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria.	• We report to the Audit and Governance Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. • In the context of the Authority, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £48,500 (PY £33,300). • If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit and Governance Committee to assist it in fulfilling its governance responsibilities.

Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements; Judgments about materiality are made in light of surrounding circumstances, and are affected by the size or nature of a misstatement, or a combination of both; and Judgments about matters that are material to users of the financial statements are based on a consideration of the common financial information needs of users as a group. The possible effect of misstatements on specific individual users, whose needs may vary widely, is not considered. (ISA (UK) 320)

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

	Amount (£)	Qualitative factors considered
Materiality for the Authority's financial statements	970,000	This is 2.2% of your prior year gross expenditure.
Performance materiality	680,000	This is 70% of our headline materiality.
Triviality	48,500	This is 5% of headline materiality.
Materiality for specific transactions, balances or disclosures – Senior Officer Remuneration	20,000	As a sensitive disclosure item within the financial statements, we have set a separate materiality of £20,000 for Senior Officer Remuneration at an individual officer level.

05 Progress against prior year audit recommendations

Progress against prior year audit recommendations

We identified the following issues in our 2023/24 audit of the Authority's financial statements, which resulted in 4 recommendations being reported in our 2023/24 Audit Findings Report. With the 2023/24 audit being signed off in February 2025, there has been limited lead time for management to action these. We have provided and update below where applicable, and will provide a full update with our Audit Findings Report.

Assessment	Issue and risk previously communicated	Update on actions taken to address the issue(s)
In progress	Journals was an area where we experienced a significant amount of delay obtaining a transactional listing. The initial data provided did not include user and posting date. We recommended that the Authority provide a suitable transaction listing at the beginning of the audit to help avoid delays and additional audit costs.	We have discussed this requirement with the finance team as part of our initial planning meetings. The finance team have confirmed that the report built as part of last years audit is now the standard report, and therefore contains all required fields. We will review this as part of our 2024/25 journals testing, before closing the recommendation.
In progress	Our PPE testing identified a number of buildings where the gross internal areas used by the valuer in calculating the year-end valuations, was not supported by the information held by the Authority. We recommended that the Authority engage the valuer to review GIA's for all assets as part of a full valuation as at March 2025 and ensure there is appropriate audit evidence to support these figures.	The finance team have provided initial terms of reference for the audit team to review. We have reviewed these and feedback. We have not yet received the final instructions but are satisfied that the scope of the work to be included based on our review and conversations with management will address this recommendation. We will review this as part of our 2024/25 PPE testing, before closing the recommendation.
In progress	During our audit we identified a number of adjustments that were not processed through the trial balance. We recommended that all financial transactions are posted to the GL.	We will review progress on this recommendation as part of our 2024/25 financial statements work.
In progress	During our testing of Useful Economic Lives (UEL) on Vehicles, Plant and Equipment, we discovered 90 assets, with a nil NBV but with a remaining useful life. We recommended that UELs are reviewed for appropriateness.	We will review progress on this recommendation as part of our 2024/25 financial statements work.

06 IT audit strategy

IT audit strategy

In accordance with ISA (UK) 315, we are required to obtain an understanding of the IT environment related to all key business processes, identify all risks from the use of IT related to those business process controls judged relevant to our audit and assess the relevant IT general controls (ITGCs) in place to mitigate them. Our audit will include completing an assessment of the design and implementation of ITGCs related to security management; technology acquisition, development and maintenance; and technology infrastructure.

The following IT applications are in scope for IT controls assessment based on the planned financial statement audit approach, we will perform the indicated level of assessment:

IT application	Audit area	Planned level IT audit assessment
SAGE	Financial reporting	ITGC assessment (design and implementation effectiveness only)

07 Value for Money Arrangements

Value for Money Arrangements

Approach to Value for Money work for the period ended 31 March 2025

The National Audit Office issued its latest Value for Money guidance to auditors in November 2024. The Code expects auditors to consider whether a body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. Auditors are expected to report any significant weaknesses in the body's arrangements, should they come to their attention. In undertaking their work, auditors are expected to have regard to three specified reporting criteria. These are as set out below:

Financial sustainability

How the body plans and manages its resources to ensure it can continue to deliver its services.

Governance

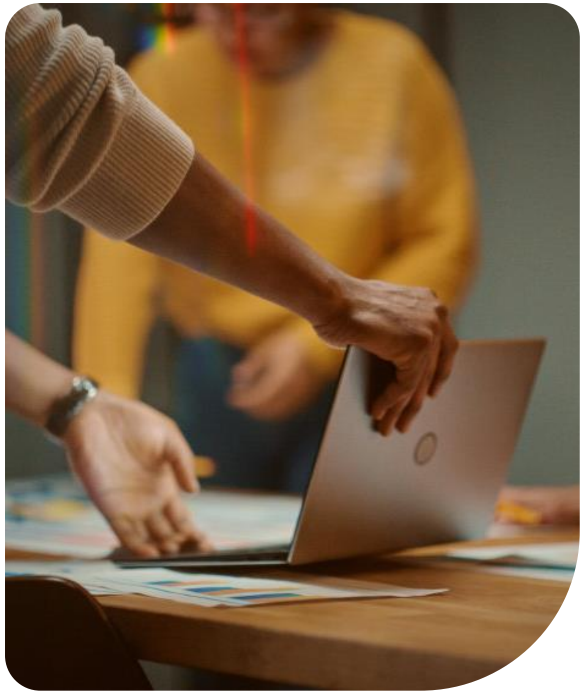
How the body ensures that it makes informed decisions and properly manages its risks.

Improving economy, efficiency and effectiveness

How the body uses information about its costs and performance to improve the way it manages and delivers its services.

Risks of significant VFM weaknesses

As part of our initial planning work, we considered whether there were any risks of significant weakness in the body's arrangements for securing economy, efficiency and effectiveness in its use of resources that we needed to perform further procedures on. The risks we have identified are detailed on the table overleaf along with the further procedures we will perform. We will continue to review the body's arrangements and report any further risks of significant weaknesses we identify to those charged with governance. We may need to make recommendations following the completion of our work. The potential different types of recommendations we could make are set out in the second table below.



Potential types of recommendations

A range of different recommendations could be made following the completion of work on risks of significant weakness, as follows:

Statutory recommendation

Recommendations to the body under Section 24 (Schedule 7) of the Local Audit and Accountability Act 2014. A recommendation under schedule 7 requires the body to discuss and respond publicly to the report.

Key recommendation

The Code of Audit Practice requires that where auditors identify significant weaknesses in arrangements to secure value for money they should make recommendations setting out the actions that should be taken by the body. We have defined these recommendations as 'key recommendations'.

Improvement recommendation

These recommendations, if implemented should improve the arrangements in place at the body, but are not made as a result of identifying significant weaknesses in the body's arrangements.

Risks of significant weakness in VFM arrangements (continued)

Initial Risk assessment of the Authority's VFM arrangements

The Code of Audit Practice 2024 (the Code) sets out that the auditor's work is likely to fall into three broad areas: planning; additional risk-based procedures and evaluation; and reporting. We undertake initial planning work to inform this Audit Plan and the assumptions used to derive our fee. Consideration of prior year significant weaknesses and known areas of risk is a key part of the risk assessment for 2024/25. We will continue to evaluate risks of significant weakness and if further risks are identified, we will report these to those charged with governance. We set out our reported assessment below:

Criteria	2023/24 Auditor judgement on arrangements		2024/25 risk assessment	2024/25 risk-based procedures
Financial sustainability	A	No significant weaknesses in arrangements identified, but two improvement recommendations were made.	No risks of significant weakness identified.	As no risk of significant weakness has been identified, no additional risk-based procedures are specified at this stage. We will undertake sufficient work to document our understanding of your arrangements as required by the Code and follow up improvement recommendations made in 2023/24.
Governance	A	No significant weaknesses in arrangements identified, but three improvement recommendations were made.	No risks of significant weakness identified.	As no risk of significant weakness has been identified, no additional risk-based procedures are specified at this stage. We will undertake sufficient work to document our understanding of your arrangements as required by the Code and follow up improvement recommendations made in 2023/24.

Risks of significant weakness in VFM arrangements (continued)

Criteria	2023/24 Auditor judgement on arrangements		2024/25 risk assessment	2024/25 risk-based procedures
Improving economy, efficiency and effectiveness	A	No significant weaknesses in arrangements identified, but three improvement recommendations were made.	No risks of significant weakness identified.	As no risk of significant weakness has been identified, no additional risk-based procedures are specified at this stage. We will undertake sufficient work to document our understanding of your arrangements as required by the Code and follow up improvement recommendations made in 2023/24.

G No significant weaknesses in arrangements identified or improvement recommendation made.

A No significant weaknesses in arrangements identified, but improvement recommendations made.

R Significant weaknesses in arrangements identified and key recommendations made.

We will continue our review of your arrangements until we sign the opinion on your financial statements before we issue our auditor's annual report. Should any further risks of significant weakness be identified, we will report this to those charged with governance as soon as practically possible. We report our value for money work in our Auditor's Annual Report. Any significant weaknesses identified once we have completed our work will be reflected in your Auditor's Report and included within our audit opinion.

Logistics

The audit timeline

Key Dates

Year end: 31 March 2025

Close out: TBC

Audit and Governance committee: TBC

Sign off: TBC

Audit phases:

Planning – 1 week
w/c 3 March 2025

Key elements

- Planning meeting with management to set audit scope
- Planning requirements checklist to management
- Agree timetable and deliverables with management and Audit and Governance Committee
- Issue the Audit Plan to management and the Audit and Governance Committee

Interim – 1 week
w/c 10 March 2025

Key elements

- Document design effectiveness of systems and processes
- Review of key judgements and estimates
- Complete work on IFR16 implementation

Key elements

- w/c 7 & 14 April 2025 – 2 weeks of early substantive testing

Final – TBC

Key elements

- Audit team complete fieldwork and detailed testing
- Weekly update meetings with management

Completion – 1 week
TBC

Key elements

- Draft Audit Findings issued to management
- Audit Findings meeting with management
- Draft Audit Findings issued to Audit and Governance Committee
- Audit Findings presentation to Audit and Governance Committee
- Auditor's Annual Report
- Finalise and sign financial statements and audit report

Our team and communications

Grant Thornton core team

Grace Hawkins

Engagement Lead/
Key Audit Partner

- Key contact for senior management and Audit and Governance Committee
- Overall quality assurance

Andrew Davies

Audit Manager

- Key contact for senior management and Audit and Governance Committee
- Overall quality assurance

Mustafa Ali Karwani

Audit In-charge

- On-site audit team management
- Day-to-day point of contact
- Audit fieldwork

Our team and communications (continued)

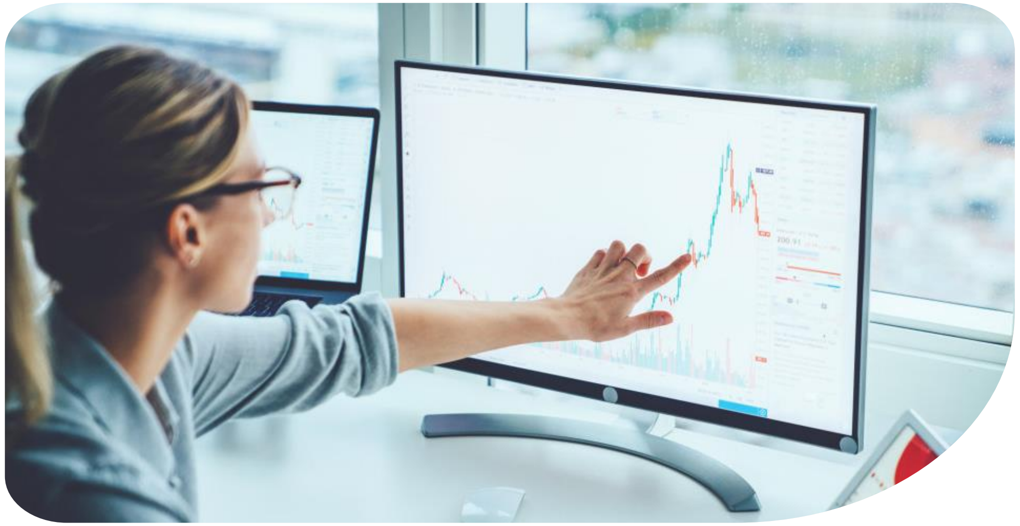
	Service delivery	Audit reporting	Audit progress	Technical support
Formal communications	• Annual client service review	• The Audit Plan • Audit Progress and Sector Update Reports • The Audit Findings Report and Opinion • Auditor's Annual Report	• Audit planning meetings • Audit clearance meetings • Communication of issues log	• Technical updates
Informal communications	• Open channel for discussion	• Meeting with members (is required)	• Communication of audit issues as they arise	• Notification of up-coming issues

As part of our overall service delivery we may utilise colleagues who are based overseas, primarily in India and the Philippines. Those colleagues work on a fully integrated basis with our team members based in the UK and receive the same training and professional development programmes as our UK based team. They work as part of the engagement team, reporting directly to the Audit Senior and Manager and will interact with you in the same way as our UK based team albeit on a remote basis. Our overseas team members use a remote working platform which is based in the UK. The remote working platform (or Virtual Desktop Interface) does not allow the user to move files from the remote platform to their local desktop meaning all audit related data is retained within the UK.

09 Fees and related matters

Our fee estimate

Our estimate of the audit fees is set out in the next slide, along with the fees billed in the prior year



Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's Ethical Standard (revised 2024) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

PSAA

Local Government Audit fees are set by PSAA as part of their national procurement exercise. In 2023 PSAA awarded a contract of audit for Royal Berkshire Fire and Rescue Authority to begin with effect from 2023/24. The scale fee set out in the PSAA contract for the 2024/25 audit is £111,904.

This contract sets out four contractual stage payments for this fee, with payment based on delivery of specified audit milestones:

- Production of the final auditor's annual report for the previous Audit Year (exception for new clients in 2023/24 only)
- Production of the draft audit planning report to Audited Body
- 50% of planned hours of an audit have been completed
- 75% of planned hours of an audit have been completed

Any variation to the scale fee will be determined by PSAA in accordance with their procedures as set out here Fee Variations Overview – PSAA

Updated Auditing Standards

The FRC has issued updated Auditing Standards in respect of Quality Management (ISQM 1 and ISQM 2). It has also issued an updated Standard on quality management for an audit of financial statements (ISA 220). We confirm we will comply with these standards.

Our fee estimate (continued)

Our estimate of the audit fees, along with the fees billed in the prior year:

Company	Audit Fee for 2023/24 (£)	Proposed fee for 2024/25 (£)
Authority Audit – Scale Fee	120,876	111,904
Total (Exc. VAT)	**120,876**	**111,904**

Previous year

In 2023/24 the scale fee set by PSAA was £101,166. The actual fee charged for the audit, subject to PSAA approval was £120,876.

As the opinion on the 2023/24 (and 2022/23) audit were disclaimed due to the imposition of a backstop date, we will need to undertake further audit work in respect of opening balances. We will discuss the practical implications of this with you should this circumstance arise.

Our fee estimate:

We have set out below our specific assumptions made in arriving at our estimated audit fees, we have assumed that the Authority will:

- prepare a good quality set of accounts, supported by comprehensive and well presented working papers which are ready at the start of the audit;
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements;
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements;
- maintain adequate business processes and IT controls, supported by an appropriate IT infrastructure and control environment;
- Ensure journals listing and transactional breakdowns of account balances are provided before the audit commences.

Our fee estimate also assumes that you will engage suitably competent experts to assist management in the following areas:

- Land and Building and investment property valuations, and
- Pension liability valuations.

IFRS 16 is a new standard applicable for the 2024-25 financial year. This will result in additional work which is not included within the scale fee. We will therefore keep this under review and assess the impact of the work involved on the initial proposed fee.

10 Independence considerations

Independence considerations

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant matters that may bear upon the integrity, objectivity and independence of the firm or covered persons (including its partners, senior managers, managers and network firms.

We confirm that there are no significant facts or matters that impact on our independence at planning as auditors that we are required or wish to draw to your attention and consider that an objective reasonable and informed third party would take the same view. The firm and each covered person and network firms have complied with the Financial Reporting Council's Ethical Standard and confirm that we are independent and are able to express an objective opinion on the financial statements.

We have not provided any non audit services.

11 Communication of audit matters with those charged with governance

Communication of audit matters with those charged with governance

Our communication plan	Audit Plan	Audit Findings
Respective responsibilities of auditor and management/those charged with governance	●	
Overview of the planned scope and timing of the audit, form, timing and expected general content of communications including significant risks and Key Audit Matters	●	
Planned use of internal audit	●	
Confirmation of independence and objectivity	●	●
A statement that we have complied with relevant ethical requirements regarding independence. Relationships and other matters which might be thought to bear on independence. Details of non-audit work performed by Grant Thornton UK LLP and network firms, together with fees charged. Details of safeguards applied to threats to independence	●	●
Significant matters in relation to going concern	●	●

Our communication plan	Audit Plan	Audit Findings
Views about the qualitative aspects of the Authority’s accounting and financial reporting practices including accounting policies, accounting estimates and financial statement disclosures		●
Significant findings from the audit		●
Significant matters and issue arising during the audit and written representations that have been sought		●
Significant difficulties encountered during the audit		●
Significant deficiencies in internal control identified during the audit		●
Significant matters arising in connection with related parties		●
Identification or suspicion of fraud involving management and/or which results in material misstatement of the financial statements		●
Non-compliance with laws and regulations		●
Unadjusted misstatements and material disclosure omissions		●

Communication of audit matters with those charged with governance (continued)

ISA (UK) 260, as well as other ISAs (UK), prescribe matters which we are required to communicate with those charged with governance, and which we set out in the table here.

This document, the Audit Plan, outlines our audit strategy and plan to deliver the audit, while the Audit Findings will be issued prior to approval of the financial statements and will present key issues, findings and other matters arising from the audit, together with an explanation as to how these have been resolved.

We will communicate any adverse or unexpected findings affecting the audit on a timely basis, either informally or via an audit progress memorandum.

Respective responsibilities

As auditor we are responsible for performing the audit in accordance with ISAs (UK), which is directed towards forming and expressing an opinion on the financial statements that have been prepared by management with the oversight of those charged with governance.

The audit of the financial statements does not relieve management or those charged with governance of their responsibilities.

12 Delivering audit quality

Delivering audit quality (continued)

Our quality strategy

We deliver the highest standards of audit quality by focusing our investment on:

Creating the right environment

Our audit practice is built around the markets it faces. Your audit team are focused on the Public Sector audit market and work with clients like you day in, day out. Their specialism brings experience, efficiency and quality.

Building our talent, technology and infrastructure

We've invested in digital tools and methodologies that bring insight and efficiency and invested in senior talent that works directly with clients to deploy bespoke digital audit solutions.

Working with premium clients

We work with great public sector clients that, like you, value audit, value the challenge a robust audit provides, and demonstrate the strongest levels of corporate governance. We're aligned with our clients on what right looks like.

Our objective is to be the best audit firm in the UK for the quality of our work and our client service, because we believe the two are intrinsically linked.

How our strategy differentiates our service

Our investment in a specialist team, and leading tools and methodologies to deliver their work, has set us apart from our competitors in the quality of what we do.

The FRC highlighted the following as areas of particularly good practice in its recent inspections of our work:

- use of specialists, including at planning phases, to enhance our fraud risk assessment
- effective deployment of data analytical tools, particularly in the audit of journals

The right people at the right time

We are clear that a focus on quality, effectiveness and efficiency is the foundation of great client service. By doing the right audit work, at the right time, with the right people, we maximise the value of your time and ours, while maintaining our second-to-none quality record.

Bringing you the right people means that we bring our specialists to the table early, resolving the key judgements before they impact the timeline of your financial reporting. The audit partner always retains the final call on the critical decisions; we use our experts when forming our opinions, but we don't hide behind them.

Delivering audit quality

Digital differentiation

We're a digital-first audit practice, and our investment in data analytics solutions has given our clients better assurance by focusing our work on transactions that carry the most risk. With digital specialists working directly with your teams, we make the most of the data that powers your business when forming our audit strategy.

Oversight and control

Wherever your audit work is happening, we make sure that its quality meets your exacting requirements, and we emphasise communication to identify and resolve potential challenges early, wherever and however they arise. By getting matters on the table before they become "issues", we give our clients the time and space to deal with them effectively.

Quality underpins everything at Grant Thornton, as our FRC inspection results in the chart below attest to. We're growing our practice sustainably, and that means focusing where we know we can excel without compromising our strong track record or our ability to deliver great audits. It's why we will only commit to auditing clients where we're certain we have the time and resource, but, most importantly, capabilities and specialist expertise to deliver. You're in safe hands with the team; they bring the right blend of experience, energy and enthusiasm to work with you and are fully supported by myself and the rest of our firm.

Escalation Policy

The Backstop

The Department for Levelling Up, Housing and Communities have introduced an audit backstop date on a rolling basis to encourage timelier completion of local government audits.

As your statutory auditor, we understand the importance of appropriately resourcing audits with qualified staff to ensure high quality standards that meet regulatory expectations and national deadlines. It is the Authority's responsibility to produce true and fair accounts in accordance with the CIPFA Code by the statutory deadline and respond to audit information requests and queries in a timely manner.

Escalation Process

To help ensure that accounts audits can be completed on time in the future, we have introduced an escalation policy. This policy outlines the steps we will take to address any delays in draft accounts or responding to queries and information requests. If there are any delays, the following steps should be followed:

Step 1 - Initial Communication with Finance Director (within one working day of statutory deadline for draft accounts or agreed deadline for working papers)

- We will have a conversation with the Finance Director(s) to identify reasons for the delay and review the Authority's plans to address it. We will set clear expectations for improvement.

Step 2 - Further Reminder (within two weeks of deadline)

- If the initial conversation does not lead to improvement, we will send a reminder explaining outstanding queries and information requests, the deadline for responding, and the consequences of not responding by the deadline.

Step 3 - Escalation to Chief Executive (within one month of deadline)

- If the delay persists, we will escalate the issue to the Chief Executive, including a detailed summary of the situation, steps taken to address the delay, and agreed deadline for responding.

Step 4 - Escalation to the Audit and Governance Committee (at next available Audit and Governance Committee meeting or in writing to Audit and Governance Committee Chair within 6 weeks of deadline)

- If senior management is unable to resolve the delay, we will escalate the issue to the audit and governance committee, including a detailed summary of the situation, steps taken to address the delay, and recommendations for next steps.

Step 5 – Consider use of wider powers (within two months of deadline)

- If the delay persists despite all efforts, we will consider using wider powers, e.g. issuing a statutory recommendation. This decision will be made only after all other options have been exhausted. We will consult with an internal risk panel to ensure appropriateness.

Aim

By following these steps, we aim to ensure that delays in responding to queries and information requests are addressed in a timely and effective manner, and that we are able to provide timely assurance to key stakeholders including the public on the Authority's financial statements.

IFRS reporters New or revised accounting standards that are in effect

First time adoption of IFRS 16 Lease liability in a sale and leaseback	• IFRS 16 was implemented by LG bodies from 1 April 2024, with early adoption possible from 1 April 2022. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and replaces IAS17. The objective is to ensure that lessees and lessors provide relevant information in a manner that faithfully represents those transactions. This information gives a basis for users of financial statements to assess the effect that leases have on the financial position, financial performance and cash flows of an entity. • This year will be the first year IFRS 16 is adopted fully within Local Government.
IAS 1 amendments Non-current liabilities with covenants	• These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments also aim to improve information an entity provides related to liabilities subject to these conditions.
Amendment to IAS 7 and IFRS 7 Supplier finance arrangements	• These amendments require disclosures to enhance the transparency of supplier finance arrangements and their effects on an entity's liabilities, cash flows and exposure to liquidity risk. The disclosure requirements are the IASB's response to investors' concerns that some companies' supplier finance arrangements are not sufficiently visible, hindering investors' analysis.

IFRS reporters Future financial reporting changes

IFRS reporters future financial reporting changes

These changes will apply to local government once adopted by the Code of practice on local authority accounting (the Code).

Amendments to IAS 21 – Lack of exchangeability

IAS 21 has been amended by the IASB to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments are expected to be adopted by the Code from **1 April 2025**.

Amendments to IFRS 9 and IFRS 7 – Classification and measurement of financial instruments

These amendments clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, adds guidance on the SPPI criteria, and includes updated disclosures for certain instruments. The amendments are expected to be adopted by the Code **in future years**.

IFRS 19 Subsidiaries without Public Accountability: Disclosures

IFRS 19 provides reduced disclosure requirements for eligible subsidiaries. A subsidiary is eligible if it does not have public accountability and has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards. IFRS 19 is a voluntary standard for eligible subsidiaries and is expected to be adopted by the Code **in future years**.

IFRS 18 Presentation and Disclosure in the Financial Statements

IFRS 18 will replace IAS 1 Presentation of Financial Statements. All entities reporting under IFRS Accounting Standards will be impacted.

The new standard will impact the structure and presentation of the statement of profit or loss as well as introduce specific disclosure requirements. Some of the key changes are:

- Introducing new defined categories for the presentation of income and expenses in the income statement
- Introducing specified totals and subtotals, for example the mandatory inclusion of 'Operating profit or loss' subtotal.
- Disclosure of management defined performance measures
- Enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes.

IFRS 18 is expected to be adopted by the CIPFA Code **in future years**.

The Grant Thornton Digital Audit – Inflo

A suite of tools utilised throughout the audit process

01 Collaborate

Information requests are uploaded by the engagement team and directed to the right member of your team, giving a clear place for files and comments to be uploaded and viewed by all parties.

What you'll see

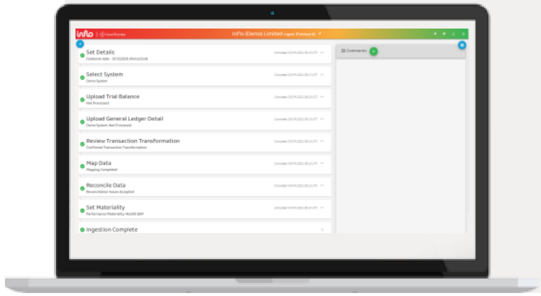
- Individual requests for all information required during the audit
- Details regarding who is responsible, what the deadline is, and a description of what is required
- Graphs and charts to give a clear overview of the status of requests on the engagement

02 Ingest

The general ledger and trial balance are uploaded from the finance system directly into Inflo. This enables samples, analytical procedures, and advance data analytics techniques to be performed on the information directly from your accounting records.

What you'll see

- A step by step guide regarding what information to upload
- Tailored instructions to ensure the steps follow your finance system



The Grant Thornton Digital Audit – Inflo (continued

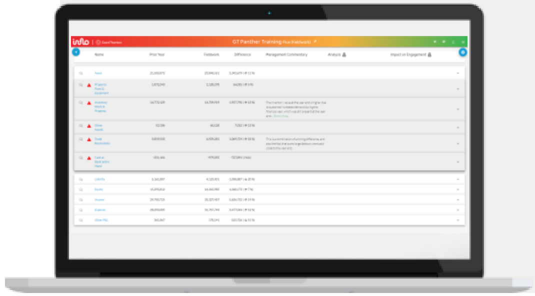
A suite of tools utilised throughout the audit process

03 Detect

Journals interrogation software which puts every transaction in the general ledger through a series of automated tests. From this, transactions are selected which display several potential unusual or higher risk characteristics.

What you'll see

- Journals samples selected based on the specific characteristics of your business
- A focussed approach to journals testing, seeking to only test and analyse transactions where there is the potential for risk or misstatement



Grant Thornton
